

THIS IS YOUR BABY

5-8 week baby in utero

You have just discovered you are pregnant. If you missed your period, your baby already has a beating heart.

- **beating heart 17-21 days**
- brain waves detectable at 6 weeks
- every organ forming at 8 weeks
- bones forming and muscles contracting
- by 8 weeks responds to touch

9-12 week baby in utero

- eye lids formed
- genitals formed
- teeth buds in place
- **unique finger prints**
- ten fingers and ten toes

12-20 week baby in utero

- eyebrows formed
- baby kicks, grasps, sucks toes and thumb
- vocal cords developed and can cry in the womb
- immune system developing
- **can feel pain**

For you created my inmost being; you knit me together in my mother's womb. I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well. -Psalm 139:13-16

HOPE & HELP 4 YOU

PSALM 46:1

THIS IS NOT A MISTAKE

An unplanned pregnancy can leave you feeling overwhelmed and even panicked. You may feel angry or hurt or sad. You may feel God is punishing you, or doesn't understand how unable you are to deal with what you are facing.

Please be assured that God loves you immeasurably and loves that baby inside of you. You are valued beyond price. The God who created the universe knows your situation and already knows and has a plan for your baby. Your baby is not a mistake.

Psalm 46:1

God is our refuge and strength, an ever-present help in trouble.

Jeremiah 1:5

"Before I formed you in the womb I knew you, before you were born I set you apart; I appointed you as a prophet to the nations."

THIS IS WHAT HAPPENS IN AN ABORTION

Abortion Pill: 5-10 weeks

Mifepristone, Misoprostol

Cost: \$350-\$600

The first medication, Mifepristone, blocks progesterone from the uterine lining causing the baby to die. The second medication, Misoprostol, taken later causes strong contractions to expel the baby. In essence, baby's nutrition is cut off, starving him/her to death.

Suction Aspiration: 6-12 weeks

Cost: \$320-\$500

Cervix dilated with cone shaped rods, suction device inserted in vagina. Strong suction rips fragile baby apart, limb by limb, removing baby parts through tube called cannula.

Dilation and Curetage: 12-15 weeks

Cost: \$360-\$600

Cervix dilated through laminaria rods on day one. In day two of procedure, baby pulled out with forceps and head crushed for removal.

Dilation and Evacuation: 15-20 weeks

Cost: \$500-\$1650

Same as above but baby must be cut up with use of sharp scalpel limb by limb without anesthesia. Babies do respond to touch and pain at this age in utero.

The thief does not come except to steal, and to kill, and to destroy. I have come that they may have life, and that they may have it more abundantly. -John 10:10

THIS COULD BE THE RESULT

Following abortion, many women experience anger and alienation from God. Some report difficulty attending church any longer, or inability to pray. Many express feelings of guilt and shame and struggle to forgive themselves or those involved in pressuring for the abortion.

Psychologists agree that failure to confront traumatic events is associated with long term health problems, and some recognize that the direct violation of one's moral code can cause deep spiritual and self-worth struggles. According to contributors to abortionrisks.org, psychologists for decades approached sin and moral lapses that led to psychological problems with a non-judgmental, accepting and neutral manner, encouraging self-love and self-acceptance.

However, they increasingly recognized that true recovery, and ultimately redemption, occurred when sin was confronted and acknowledged. When guilt and sinfulness are accepted and dealt with, "radical reformation" becomes possible. (Abortionrisks.org)

This is the message of the Bible as well. All have sinned and fall short of the glory of God. The penalty for sin is death, eternal separation from God. Abortion is a direct violation of God's 6th commandment: you shall not murder. Repentance or sorrow and turning from our sin is the first step in mending our relationship with God that is severed by our sin. The Bible says that Jesus willingly paid the penalty for sin that we owed, suffering for our transgressions though death on the cross. He rose again, demonstrating not only His deity, but also that He had the power to overcome death, and therefore the power to set us free as well. Romans 10:9 says, "If you proclaim with your mouth that Jesus is Lord and believe in your heart that God raised Him from the dead, you will be saved."

Repent of the grievous sin against God and your child in the violence of abortion. Believe in Jesus' atoning sacrifice. Accept what He did on your behalf. Submit your life to His authority and live following His plan for your life. You can find healing and forgiveness today.

"He himself bore our sins in his body on the tree, that we might die to sin and live to righteousness. By his wounds you have been healed."

-1 Peter 2:24
